

AGUA TOPONE

HOUSEHOLD UV LIGHT

Killing bacteria / virus / acarid

Patented Close & Open design

Model: TDZ-101

Power: 40w

Voltage: 220V or 110V

Frequency: 50/60Hz

Dimension: D200mm, H400mm

Timer: 30/60/120 minutes gear

Application: house, school, hospital, restaurant, office,
hotel room etc.

Capacity:

Space	≤ 20 m ²	20-40 m ²	40-60 m ²	≥ 60 m ²
Time	30 minutes	1 hour	2 hour	24/7

Open mode when
people absence

Close mode when
people nearby

Built-in fans for air
ventilation

High transmittance
uvc germicidal lamp

Concealed handle for
easy movement

Anti electricity leakage
design

Instruction:

You can catch some diseases simply by breathing. These are called airborne diseases. Airborne disease can spread when people with certain infections cough, sneeze, or talk, spewing nasal and throat secretions into the air. Some viruses or bacteria take flight and hang in the air or land on other people or surfaces.

When you breathe in airborne pathogenic organisms, they take up residence inside you. You can also pick up germs when you touch a surface that harbors them, and then touch your own eyes, nose, or mouth.

According to the latest guideline on the diagnosis and treatment of the novel coronavirus released by the National Health Commission 2020, the virus is sensitive to ultraviolet light and heat, so ultraviolet radiation can effectively eliminate the virus. Indoor spaces should be disinfected with ultraviolet light with an intensity of over 1.5 watts per square meter.

Features:

1. H type germicidal UV lamp, higher UV output with compact footprint.
2. High quality with 3 Years warranty
3. 99% anti-bacterial rate
4. Human share same room with machine. When people in the same room with the machine, the side gates close and air cycle start automatically.
5. Keep air cycle to get fully air sterilization
6. 3 gear timed 30/60/120 minutes, also 24/7 working
7. Powerful remote control function can let you partition wall remote control, could be 10 meter at max.
8. More power with 3 fan speeds.
9. Voice guide to remind you how the machine working status
10. 30 seconds delay to start, to ensure people leave safely.
